ERRORLESS LEARNING

What is Errorless Learning?

Errorless learning is an instructional strategy that allows children to practice skills with confidence. Errorless learning ensures that students are always responding correctly, building their confidence and increasing their knowledge at the same time. Errorless choices on worksheets or hands on tasks reduces the need to prompt a student verbally, and therefore reduces the chance of a student relying on your prompts!

BOOM LEARNING VERSION INCLUDES:

Learning Level: **ERRORLESS**

30 questions that randomize each play

Self correcting slides give a sound cue for right or wrong answers

Slides include audio prompts
> *Animals audio prompt: "Touch the match"*
> *Body Parts audio prompt: "Find feet"*
> *Colors audio prompt: "Touch the color"*
> *Food audio prompt: "Touch donut"*
> *Safety Signs audio prompt: "Touch the match"*

ABOUT BOOM:
Teachers can assign the deck to students and view data.

Teachers can hide cards and choose the amount of cards assigned for each play. Great for differentiation!

Boom shows a max of 25 cards per play.
(30 unique cards in this deck provides variety for your students for each play!)

BOOM FAQ

How do I access the boom cards?
Click the link that says, *"Click here to access your new Boom Cards™ deck!"* in the *ACCESS BOOM PDF* included with your purchase download. Boom will prompt you with the rest.

How do I send to students?
When you make a teacher account you will make a classroom page. You will add students to the classroom and set their login information. Then you share that with the student. Once you have the students in your "classroom" you can assign them decks based on the student's ability and needs. You can watch a video tutorial [here](#).

Is the order of cards the same every time?
The order will be randomized each time the student opens a Boom Cards™ deck.

Can I upload to Google Classroom? You would use a Fast Pin to send students a link to the deck that would open without login.
You can learn more about using Boom in Google Classroom [here](#).

Why do my Fast Pin links expire?
Fast Pins are links that allow students to click and start playing without logging in. Fast Pins expire in 14 days and do not give you student data. To get data and links that do not expire add your students to your classroom and assign the Boom Cards™ decks.

Do I need a paid account?
You can always use Boom for free and get student reporting for up to 5 students. For more students and the ability to assign hyperlinks that do not expire you will need a paid account.

What are custom play settings?
Custom play settings allow the teacher to decide if they want to show students the correct/incorrect answers or allow for multiple plays. You can also decide how many cards will be in a Boom Cards™ deck for the student each time they play.

How do I select the amount of cards a student plays?
In your library, you can click the blue arrow to select custom play settings on a Boom Cards™ deck.

Can I print Boom Cards? You can print Boom cards for personal classroom use only, but they are created with digital in mind.

How do I differentiate boom cards? In your library, you can use the hide card option if there are cards that are too hard, too easy, or that you simply do not want to include at this time. This allows you to differentiate.

COMMON BOOM PHRASES:
Boom Cards™ Deck – digital flip card set
Fast Pin – no login required, no data recorded, student can use link for 14 days (free)
Hyperplay Link – sign in required, graded and recorded data, link does not expire (paid)
Hide Cards – great for differentiation
Custom Play Setting – allow/disallow multiple plays

BOOM LEARNING
